NAMMA
Bengaluru

Welcome to Bengaluru!

The capital city of Karnataka, Bengaluru, is a vibrant city with a rich mix of the traditional and the contemporary. It is a perfect confluence of art and architecture, tech-innovation and modern industrial growth, temperate climate, and an active nightlife. Over the years, the city has evolved from a 'Pensioner's Paradise' to a 'Tech Hub' to the epicenter of 'Tech Innovation', 'Fusion Gastronomy' and 'Modern Lifestyle'.

With time, Bengaluru has also emerged as the tech capital of India, with some of the most popular and celebrated IT giants finding a base in India's Silicon Valley.

Bengaluru is the most-sought after cosmopolitan city for international tech giants like Google, Amazon, CISCO, while home-grown IT moguls like Infosys and WIPRO, still have their head office in the city. Bengaluru is also home to many unicorns and emerging decacorns, the city is also headquarters to some of the most dynamic and fast-growth startups like Flipkart, Ola, Swiggy, Myntra, PhonePe, ZoomCar, BYJU'S, among many others.

The city's love for diverse culture and adoption of heterogeneous lifestyle can be witnessed in its acceptance of its food culture. A home away from home for millions of students and the working population, Bengaluru is a land of opportunities for all. It promises safety, comfort, and growth to everyone who chooses to make the city their home.

Welcome to 'Namma Ooru.'

About REVA University

Building Dreams, Designing Future

Established under the REVA University Act 2012, the University is recognised by the University Grants Commission (UGC) and is approved by the AICTE (All India Council for Technical Education). REVA University prides itself in contributing to every student's holistic development. The University currently offers 49 full-time Undergraduate Programs, 28 full-time Post Graduate programs, 2 part-time Post Graduate programs. The University offers programs in Engineering, Architecture, Science and Technology, Commerce, In-Engineering, Law, Arts & Humanities, and Performing Management Studies. REVA University facilitates research leading to a Diploma too. REVA University facilitates research leading to a Doctoral Degree in all disciplines.

The programs offered by REVA University are well-planned and designed based on methodical analysis and research with emphasis on knowledge assimilation, practical applications, hands-on training, global and industrial relevance, and their social significance. REVA University believes in preparing students through the Choice Based Credit System (CBCS) and Continuous Assessment and Grading Pattern (CAGP) of education.

The CBCS & CAGP pattern of education has been introduced in all programmes to enable students to opt for subjects of their choice in addition to the core subjects of study and to train them with vocational skills. This methodology helps students earn more credits and facilitates students pursue additional Proficiency Certificates and Diplomas.

The faculty is an active part of the academic dialogue. Teachers and instructors with illustrious academic experience are the architects of the meticulously designed curriculum and program modules offered at REVA University. They come with industrial exposure and experience that often translates through their teaching, thus bridging the gap between the industry and academia.

REVA University has an updated, ever-evolving collection of books, journals, and digital content in the library with the latest IT infrastructure that ensures students have information at their disposal.

The lush green campus, state-of-the-art laboratories, custom-designed classrooms to enable seamless learning, and world-class indoor and outdoor sports facilities make REVA University the most preferred university among students and MNCs that visit the campus for placements.

Building
DREAMS
Designing Future

Redefining Perception

Dear game changers,

Welcome to REVA University! I like to address the student populace as game-changers because we, at REVA, believe in the phenomenal power of the youth, and their powerful ideas. As students, you hold the power to transform society and change the paradigm of every development – economic, social, and cultural. Gen Z is born with immense capabilities that can change the face of a nation, and we are proud to cultivate, nurture, and discipline such game-changers at REVA University. The University is driven by the founding philosophy that 'Knowledge is Power', and we are striving to build a community of perpetual learners who can achieve everything they aspire. To build such a community, learning should be continuous, and cross all borders. Hence, REVA University has adopted the mission to make learning unlimited. Our driving principle of 'Learning Unlimited' is empowered with the adoption of technology.

As we have seen in the recent past, technology in education is not just an enabler, but a necessary medium, and the crisis in the Education sector during the pandemic helped us all understand the importance of virtual learning. Fortunately at REVA, we had adopted a digital-first approach towards educating our students, and our preparedness helped us smoothly transition towards online learning.

The pandemic was also a reminder that Blended Learning is the way forward and is the biggest enabler of seamless learning. Our core vision remains to change the way students learn from traditional learning methodologies and we are happy to adapt and adopt technological changes.

The ecosystem at REVA University is not only tech-centered but is developed in such a way that it contributes to the overall development of a student. Our exclusive executive program RACE (REVA Academy for Corporate Excellence) has been ranked 2nd in India for MBA in Business Analytics, REVA NEST- the Start-Up Incubator, are all designed to make our students ready for the corporate world.

In a step ahead, our UIIC (University-Industry Interaction Centre) program allows students to interact and learn from the industry leaders. The UIIC is an exclusive program of the University and a key enabler in bridging the gap between academic life and the corporate world.

Going forward, we aim to make all the disciplines at par with our exclusive programs, and REVA aspires to be a coveted multi-disciplinary institution.

True leaders and game-changers are made when a University takes it on its shoulders to mould personalities and gives life to the ideas of its students. With the dedicated efforts of our eminent faculty members, I am certain REVA University students will be guided and mentored in such a way that they will be the game-changers of tomorrow.

Dr. P. Shyamala Raju
