

## Annual Achievements of the Ministry of Higher Education.

After the victory, delegations were sent to the central and provincial zones by the leaders of the Islamic Emirate and the leadership of the Ministry of Higher Education to properly plan and implement the protection and safety of all educational institutions. Alhamdulillah, with the help of Mujahideen, the delegation selected according to the planned, and they were able to protect all educational institutions and keep all the equipment of these institutions safe.

1 : On 15<sup>th</sup> August, according to the conquest of the center (Kabul), the administrative regional officials of the Higher Education came to the buildings of the ministry and educational institutions, and on 16<sup>th</sup> August, 2021 took the necessary measures to start the work of these institutions, and as a result, they were able to successfully start all the administrative work back.

2: The Ministry of Higher Education commenced all the educational foundations back on 6<sup>th</sup> September 2021, and covered all the remaining semesters and registered new sophomores.

Alhamdulillah, now, all the governmental and private universities are active without any kind of obstacles.

3 : In the month of September, the administrative affairs of the government educational institutions also started according to the private educational institutions, but the teaching activities were suspended for a short period of time due to the lack of funds. As a result of the tireless efforts of leaders and the leadership of the Ministry of Higher Education, teaching activities started on the 2<sup>nd</sup> February, 2022 in the hot areas of the country and also on the 26<sup>th</sup> February, 2022 in the cold areas of the country. Within two months , incomplete semesters were completed, the results of the 2021 year entrance exam were announced and the registration process of new students was successfully completed. Currently, the teaching activities of government educational institutions are continuing normally based on the relevant legal documents.

4: Also, after the victory, our team has taken the (Exit Exam) from medical students, and also taken the specialization test, and hired 100 doctors as volunteers for hospitals.

5 : At present, all the activities of the Ministry of Higher Education are continuing normally, the educational certificates of the graduates of the public and private educational institutions have been approved, the stages related to the evaluation and equivalence of the foreign educational certificates are complete, as well as the quality assessment of the universities, teaching affairs. Supervision, attraction of academic staff and administrative staff, academic research and promotions, foreign scholarship arrangements, financial and procurement activities, as well as all other similar activities are flowing in a normal and fast manner.

6: At present, mixing has been prevented in all private and governmental educational institutions. Educational institutions have specified days during the week. Alhumdullilah, this series continues successfully till now.

7 : During the monitoring and evaluation of the Ministry of Higher Education, in order to prevent the forgery and falsification of educational certificates of imaginary and baseless students, administrative bureaucracy and duty carelessness, it took significant useful steps and in this regard necessary decisions and measures were taken.

8: After the control, the leadership of the Ministry of Higher Education has invited all the teachers in order to give them different seminars about different field, and increased all those subjects which answer all the needs of present and upcoming generation, but the subjects which produced negative effects were eliminated, and we add Islamic Culture at every single faculty.

9 : After the complete conquest of the country, according to the instructions of the acting leadership of the Islamic Emirate., along with other government institutions, the Ministry of Higher Education also organized a competent technical and professional committee in the framework of human resources.

Amended and renewed, some positions were removed, some were modified, some were transferred and some others were invented based on necessity.

10 : The Ministry of Higher Education has established the Department of Religious Universities and Specializations within its framework for the purpose of evaluating, equivalency, and issuing legal educational certificates of graduates from religious universities. Scholars and experts in each field have received standard and accepted certificates based on the available certificates from their studies. This department has three other departments in its composition

11 : Based on the decree of Al Qadr Amirul Momineen, all the affairs of the Directorate of Religious Universities and Specializations Affairs have been integrated with the Ministry of Higher Education, which has been progressing properly until now.

12: The very preeminent directorate that we have created is Dawa and Irshad.  
The efforts of such directorate are so outstanding.

13 : The Ministry of Higher Education, in order to have an advanced curriculum with all academic and international standards, created a new department called Curriculum in the new structure, which has many professional positions. The Higher Education Commission also functions, which is made up of lecturers from reputable universities and is responsible for monitoring and controlling the affairs of the curriculum.

14 : The Ministry of Higher Education had a structure before the conquest (14736) which included cadre, administrative and service positions. After the amendment and reformation, this formation has been increased to (16027). in addition, to the increased formations in the center of the ministry, in the center of

the Afghan International University, Hazrat Abdullah Bin Masoud (Radi Allahu Anhu) Jamia and Hazrat Ibrahim in Kandahar. The Nakhai (may God have mercy on him) community is included.

15: After the victory, many staff and administrative positions of the Ministry of Higher Education were vacant due to some reasons. Taking into consideration, without any kind of ethnic, directional or linguistic discrimination, all citizens were provided with the opportunity to get membership through free and transparent competition, and qualified staff and administration people were attracted to it.

16: The Afghan International University was established in the formation of the Ministry of Higher Education.

17. Due to the addition of two credits in the subject of Islamic culture, according to the request of the Ministry of Higher Education, for teachers in the field of Islamic culture. Besides, (658) positions were approved by the leadership. which was distributed based on the needs of government universities and educational institutions

18 : After the conquest, despite the fact that all the banks were facing a shortage of funds, the current leadership of the Ministry of Higher Education paid special attention to this part and by restoring the financial system in a short time, they were able to provide higher education. The Ministry of Labor has properly implemented the salaries and allowances of the employees of all the central departments and the teachers and administrative workers of educational institutions and any kind of hindrance in the administrative work has been avoided.

19: The Civil Higher Education Law of the Ministry of Higher Education and about 10 effective regulations and dozens of bills, procedures and guidelines have been prepared, in which the professional, technical and experienced teachers of the country with the participation, various clusters were formed and

considering the suggestions and requests of the said teachers, the amendment process was finalized and the mentioned amended law was presented to the relevant authorities for approval.

.1
